THE MARKET NEWS SERVICE ON DAIRY AND POULTRY PRODUCTS

U.S. DEPARTMENT OF AGRICULTURE
MARKETING BULLETIN NO. 42

THE MARKET NEWS SERVICE on DAIRY and POULTRY PRODUCTS

WHAT IT IS

Dairy and poultry market news is a Government service providing unbiased and accurate information on the trading of poultry, eggs, and dairy products. The service distributes price and market information on supply and demand which is gathered by skilled reporters employed by the U.S. Department of Agriculture and by cooperating State agencies. This information is provided to farmers, producers, processors, merchandisers, and others in the poultry and dairy industries as an aid in marketing and future planning.

The market news service is conducted under the supervision of USDA's Consumer and Marketing Service.

WHERE AND HOW MARKET NEWS IS COLLECTED

Information on poultry, eggs, and dairy products is gathered anywhere business is done—on the farm, at country assembling plants, shipping points, terminal markets, and also from distributors, wholesalers, and buyers. The profes-

sionally trained market news reporter talks with buyers and sellers, checks negotiations and supply/demand conditions. Then he analyzes and evaluates the facts and releases this information through his market news office.

Market news offices are located in major producing areas and terminal markets and comprise a nationwide network. Connected by leased teletypewriter lines, these offices exchange information within minutes and comparisons are quickly made between markets on prices and trading conditions.

WHAT DAIRY AND POULTRY MARKET NEWS COVERS

The information assembled covers selling prices of poultry, eggs, and dairy products, and includes statistics on movement and supply of these items in all markets.

In addition, the market news reporters analyze data and trends on trading activities, demand, price averages, and quality ranges in order to comment on general marketing conditions for dairy and poultry products.

MARKET NEWS REPORTS ON THESE DAIRY AND POULTRY COMMODITIES

POULTRY:	Broilers	Fowl

MARKET NEWS IS DISTRIBUTED BY

- Telephone
- Mailed Reports
- Daily and Weekly Newspapers
- Radio and Television
- Trade Papers
- Press Associations

HOW TO GET MARKET NEWS REPORTS

Detailed market news reports are mailed free on request from market news offices throughout the country. Select the reports you need from the list and write to the offices that issue them, asking to be put on the mailing list.

You may wish to receive daily market news reports, or often you can request these reports for the days you want—for example, Monday, Wednesday, and Friday reports; Monday reports only; or daily reports for the week mailed on Friday.

Many newspapers, several hundred radio stations, and some TV stations carry market news information received from the Federal-State Market News Service. Check with the newspapers and broadcasting stations in your area for local information.
